Dilation

It is important to dilate your eyes in order to perform a thorough eye examination. Dilation allows a larger “window” for the doctor to view and evaluate your retina and optic nerve. Without dilation the Dr. may not be able to see some conditions like retinal tears, retinal thinning, early retinal detachments, and tumors. We will provide you with disposable sunglasses, as your pupils will be larger than usual for approximately 8 hours, which will cause you to be more sensitive to sunlight. You may also notice that your near vision is blurry for approximately 3 hours. Though distance vision is not usually significantly affected, some patients are more comfortable having a friend or relative drive them home after dilation. If you do not feel comfortable driving, please notify our staff and we will help you make arrangements for a ride home. ***There is no additional fee for dilation.***

Optomap Retinal Screening

We pride ourselves in providing our patients with the best possible standard of care. Because of this we now offer the Optomap Retinal Screening to all of our patients. This screening is a fast, easy, and comfortable procedure that allows our doctors to see a much broader and more detailed view of the retina than is possible with conventional methods. The scan becomes a permanent part of your medical file, enabling your doctor to make important comparisons should potential vision threatening conditions appear in future exams. ***The \$35 fee for this procedure is generally a non-covered service by insurances unless being used to actively follow a disease.***

Contact Lens Fees

Contact lens evaluation services are not included in an eye health evaluation and vision assessment, and additional fees apply. Fees are customized according to the complexity of the case and the predicted time necessary to care for the individual patient. Fitting fees cover evaluation, training, sample solutions, two months of follow up, and may include a pair of disposable diagnostic lenses. Specialty lenses and office visits outside the initial two month fitting period are not included and additional fees may apply. ***Fees for contact lens evaluation services range between \$40.00 and \$160.00*** and can only be firmly quoted after vision status is determined. As with glasses, contact lens materials are an additional fee. If allowed, insurance benefits may be applied to contact lens overages. My initials and signature below verifies I understand there are additional fees to evaluate and prescribe contact lenses.

Financial Disclaimers

We will attempt to verify your plan eligibility for services and/or materials before your appointment. Verification of eligibility is done as a courtesy only and is not a guarantee of payment. Please check with your plan administrator if you have any questions regarding your eligibility.

Liability

If I have medical insurance or routine vision benefits, I authorize my plan carrier to directly pay Solano Eye Care. I also authorize Solano Eye Care to release any information required for payment to be made. If my plan carrier does not pay, or partially pays, I understand I am responsible for payment of the balance. My signature below verifies that I understand this agreement and the above financial disclaimers.
